

INCLUSIVE

EDUCATION

project

LEVELING THE PLAYING FIELD *for your child's education.*

The Inclusive Education Project ("IEP") is a non-profit organization that educates families on special education rights and connects California families with pro-bono legal aid. IEP seeks to spread awareness of parent rights by providing parent workshops and seminars. IEP also fundraises through charity events to fund pro-bono legal aid to California children and families who could not otherwise afford legal representation.

Through its efforts, IEP will "level the playing field" of the public education system for children living with disabilities.
