

WYS Outreach & Engagement Program

For over 40 years, Western Youth Services has been the leading mental health service provider in Orange County. Our recently introduced Outreach & Engagement Program is a MHSA funded program that provides free services to all of South Orange County Residents of **all ages at no cost!** Please see below for information on the various services the Outreach & Engagement Program has to offer:

- **Educational Workshops**
 - We have various topics that we may present to your audience such as Building Healthy Relationships, Effective Communication, Conflict Resolution, College Options and many more. (Request form is attached)
- **Support Groups**
 - This may be for families, siblings, students, identified groups in the community, or anyone! We also have various topics that we may assist participants with. This only requires a minimum of 2 participants and groups are usually 6-8 weeks.
- **Case Management**
 - O&E provides individual case management, coaching and goal setting services in your home or community. This may be for parents, teens, children, students and transitional aged youth. We work one-on-one with participants in helping them achieve their personal goals such as: finding a job, applying for college/financial aid, improving coping skills/social skills etc. (Referral form is attached)
- **Referral & Linkage**
 - We can provide a wide range of referrals for various services and needs. We ensure you have made contact and have been assisted with your need by ensuring a proper and complete link to the service. This may also include referrals for counseling services.

We are **community based**, therefore **any of the above services may be provided at your facility or the participant's home, park or closest preferred location.** For all services, comprehensive needs assessments are conducted. This allows us to customize services to meet the need(s) of the population we serve.

For more information, or if you would like to set up a meeting with your staff to learn more about our services please contact:

Dania Lizalde, Lead O&E Specialist
